

DSCR Loan

Build Your Investment Portfolio Faster with DSCR Loans

A DSCR (Debt Service Coverage Ratio) Loan helps real estate investors qualify for a mortgage based on the property's rental income rather than personal income. To determine eligibility for DSCR Loans, we instead evaluate the rental income in relation to the loan payment.

This type of loan is ideal for real estate investors, buyers of rental properties, and those looking to grow their investment portfolios. DSCR Loans offer several advantages, including no need for income or job verification, the ability to finance 10+ homes, and flexible qualifying criteria. They are a great option for anyone focused on building passive income through real estate.
